

Wellness Plans

WINTER 2010

Our mission is to provide the highest quality care for our patients and clients. Wellness plans offer a simple way to meet your needs as well as those of your pet.

Each plan offers basic well health care, including twice annual exams, stool checks, and vaccinations. Age-appropriate lab diagnostics provide extra peace of mind by testing internal health and function.

This brochure will provide you with all of the information you need to select the plan that works best for you.

Our Definition of High Quality Care

“The Best Medicine” and “High Quality Care” are commonly heard phrases. But what do they mean?

The veterinarians and staff at Pet Authority are committed to you and your pets. We want to do for you what we would do for our own pets. This means that we keep up to date on the most modern techniques and diagnostics. We offer our expertise in all areas and stages of your pet's life, from housebreaking a puppy to geriatric care for our senior pets. We keep close partnerships with local specialists to offer advanced care for patients with severe problems.

Physical examinations twice a year for life are recommended. Pets can't tell us in words how they are feeling. As

veterinary care professionals, we rely upon an owner's close bond to know when something isn't right. From there, we take over with our professional training. The most valuable tools that a veterinarian can use are our senses. By examining your pet, we're able to get a very good idea of general health and in many cases, a good indication of what is making a pet sick. Without an examination, many illnesses or problems can go unnoticed until they are very severe. Remember, pets try to hide illness and pain, even from owners. By the time they show just how bad they're feeling, making them well can be much harder to do. Twice yearly exams let us help your pet to overcome small problems instead of big emergencies.

Bloodwork, Radiographs, Urinalysis, and Stool Checks.

The body is made up of many complex systems. In order to know how organs are functioning, we perform lab work and diagnostic tests. These tests provide information that even a good physical exam can't provide. Paired with twice yearly visits, these diagnostics give us the complete picture of your pet's health.

We offer the best to every pet because every pet deserves it!

Rx

A Long, Healthy, Happy Life

Instructions: Exam twice a year + annual diagnostics.

Wellness Plans Meet The Goals

Wellness plans offer comprehensive care for your pets. Based on species, age, and strong preventive medicine, these plans make it easy to do what's best for your pet. Plans provide a simple path to good health. Each tier is set up to match your pet's age, but any pet can have any plan you wish.

All plans are priced at a discount from regular prices. Plans also provide percentage discounts on flea, tick, and heartworm prevention. Plans qualify a pet for a discount on exams and procedures for an entire year. This means that **any** visit outside of the twice-yearly exams are discounted.

Providing the best doesn't have to mean paying a premium. Wellness plan purchases may even qualify for an interest-free payment plan. Ask our reception staff for details!
